Education

UNC Charlotte

B.S. in Sports Analytics, Minor in Communications, Minor in Political Science

Charlotte, NC

Expected June 2028

Relevant Coursework: Databases (SQL), Elements of Statistics (R), Data Structures (Java), Modeling (Python)

Experience

Dscout

Charlotte, NC

User Research Participant

December 2024 – Present

- Participate weekly in paid surveys, live interviews, and diary studies, providing detailed feedback about products and user experiences.
- Follow study protocols, communicate clearly in live settings, and produce high-quality responses under strict deadlines.
- Completed 150+ research opportunities and consistently qualify for increasingly selective studies.

Projects

UNC Charlotte

Charlotte, NC

Student

April 2026

- Analyzed city statistics to determine if Charlotte should invest in Bank of America Stadium using Python, pandas, seaborn, matplotlib, and scipy.
- Transformed variables, ran tests to find p-values, and created visuals comparing investing vs. not investing.

UNC Charlotte

Charlotte, NC

Student

September 2026

- Analyzed NASCAR statistics to prove if there is a statistically significant difference in Joey Logano's performance between even and odd years, using Python, pandas, seaborn, matplotlib, and scipy.
- Transformed variables and used t-tests and chi-squared tests to find p-values and compare with other drivers.

Skills & Interests

Technical: Python, SQL, R, Java, Pandas

Interests: Sports, Music, Tech, Politics
